

SkillUp School in Luxembourg

We are happy to introduce a new **20-hour** course from a leading expert and trainer with **10 years experience** in Web Development.

Vasilika Klimova is an author of several courses, collaborating for many years as an instructor and mentor, in well-known online and offline schools, such as HTMLAcademy, Netology, Moscow Coding School, GeekBrains school and Loftschool. She is a regular speaker at different **Frontend** Europe Conferences.

She currently works for Avaloq and previously worked as a Team Leader in Artec 3D and other european companies.

This course will help you enter the IT field very easily. During the lessons you start to think as a developer. You will learn how to create a website, how to make it popular and visible on top of Google Search and even how to use **animations** on your website to make it unique and looking up-to-date. That is very interesting and it could be your **future career!**

Vasilika Klimova has a unique ability to make complicated things easy, explaining technical material in a way that is clear to everyone. She has converted many of her students that started to learn coding from zero to change their job and to become a programmer, entering the exciting world of Information technology.

This course is the easiest way to start programming.

This course could be useful for:

- 🚀 Any beginners who have never tried coding before
- 🚀 Children and Students for self-development and future profession
- 🚀 Designers who want to know more about how to code
- 🚀 Product-managers in web IT field

What we are going to study:

- ✓ Understand the web development process
